

Student Checklist

This checklist will help ensure that you have all the necessary information available BEFORE you begin the online registration for the Sacramento Regional STEM Fair. This is very important because you CANNOT save your work on the online registration.

We suggest that you complete a copy of the registration in Microsoft Word prior to beginning the online version, that way you could simply copy and paste the answers!

Checklist.

- You have completed the Microsoft Word draft
- You have completed your abstract
- You have completed your hypothesis
- You have completed your materials list and procedures
- You have completed your bibliography
- You have decided what category to enter your project into
- You have decided on a Title
- You have downloaded all necessary additional forms for your project registration. Don't know what forms you need still? Click here to review the [Roadmap](#).
- You have collected everyone's email addresses - your partner(s) emails, your parent's emails, your teacher's emails, your qualified scientist's emails
- You parents have already signed the signature pages
- You are ready to upload all additional forms

[Download the Microsoft Word version here.](#)

Guide.

This guide is meant to help all students - whether this is your first or 7th time filling out registration. We've tried to keep it short and sweet, but there is a lot of information we need to approve your project!

In order to prepare yourself for what the online registration asks, we've created a couple of documents for you.

1. First, we have the Microsoft Word version of registration. This is ONLY A TEMPLATE. This document will make it easy for you to answer all the questions ahead of time and figure out what information you may be missing.
2. We've created a Roadmap for you to identify what additional forms you will need. ALL PROJECTS NEED SOME ADDITIONAL FORMS. Check it out here.

[Download the Roadmap to Registration here.](#)

3. If you are still stuck, feel free to call us or ask your teacher if bringing STEM Fair staff out to help your class is an option.
